

Increase your revenue. Reduce your lost billings. Together with HVMS software.

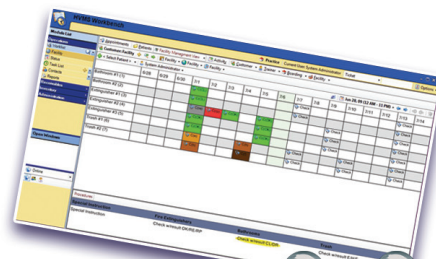

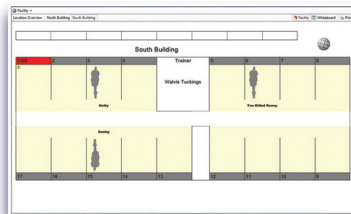

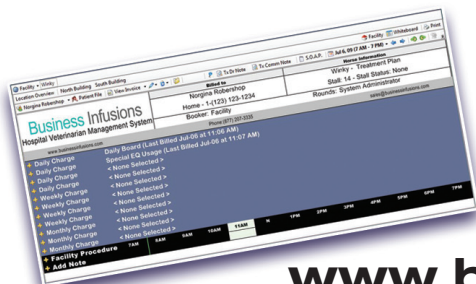

Automated billing charges features ensure your facility does not lose any potential revenue. Capture and bill out all boarding fees to grow your income and profits.

The benchmark software platform for veterinarian and animal care professionals is now available in a special version specifically for **Stable and Barn Management**. Improve your stable's efficiencies with this cost-effective solution.

- Full facility manager, including the ability to handle multiple buildings, even in multiple locations or cities – always track the location of all horses
- Automate boarding charges to trainers, owners or patients – set up billing charges to occur daily, weekly or monthly
- Maintenance schedules: map key physical items into the facility manager
- Automate and track required service on standard equipment such as tractors, fire extinguishers, water valves and more, ensuring accurate compliance to state and local laws
- Daily treatment plan charts, including medications and supplements
- Electronic record keeping, including veterinarian records and farrier visits. Also tracks training schedules and breeding/foaling criteria
- Accurate and more efficient monthly billing: HVMS ensures your business is not missing revenue from lost billings, and saves time on invoicing each month
- Flexible software costing. Flat monthly fees based on the number of horses in your stables – HVMS costs always stay in line with your incoming revenue
